

Cigarette Smoke

Dotan

Pour me inside out
Like a wine
Were you mine?
Waving in the clouds
Try and try everytime

Oh, when you left me in the cold
Walking and broken on my own
Frozen I hold you in my lungs
But now you're cigarette smoke from a ghost that I don't know
And I've been choking my breath since the day that you let go

Burn my wooden heart
Set a fire, keep it high
Until I fall apart
Could you hide by my side?

Oh, when you left me in the cold
Walking and broken on my own
Frozen I hold you in my lungs
But now you're cigarette smoke from a ghost that I don't know
And I've been choking my breath since the day that you let go

Ah-ah-ah, ah-ah, ah-ah
Ah-ah-ah, ah-ah, ah-ah
Ah-ah-ah, ah-ah, ah-ah
Ah-ah-ah, ah-ah, ah-ah

Pour me inside out
Like a wine
Were you mine?
