

I Can Turn You Every Way But Loose

Dottie West

You lived it up, turned me down
Now it's gonna be the other way around
I can turn you every way but loose

You take me in then turn me out
Now we're gonna take it and turn about
I can turn you every way but loose

I can turn you every way but loose
For I can never ever let you go
Can't stand to see you with someone else
While I still love you love you so

Don't ask me to let you go
For honey, I just want you to know
I can turn you every way but loose

I can turn you every way but loose
For I can never ever let you go
Can't stand to see you with someone else
While I still love you love you so

Don't ask me to let you go
For honey, I just want you to know
I can turn you every way but loose
