

Got To Love

Double You

You make me feel
Love, love is danger
When it is like a stranger
Beware of what you do
Before you're hearts broken in two
Fight, beware you're swallowed
Get rid all your sorrow
Go back on the attack
Or else she won't come back
Love, love is anger
It kills you like a stranger
Because it has no mercy
All it can do is curse me
Fight and don't surrender
Stand up and just remember
Go back on the attack
Or else she won't come back

I've got, I've got no love
I'm trying to talk to you
(2x)

Everybody has got to love someone
(2x)

I've got, I've got no love
I'm trying to talk to you
(2x)

Everybody has got to love someone
(4x)

I've got, I've got no love
I'm trying to talk to you
(4x)

You make me feel
