

We All Need Love

Double You

We all need love, we all need love
We all need love, I swear it's true
All god's children, me and you
We all need love, I swear it's true
All god's children, me and you

We all need love, we all need love
We all need love, we all need love...

I was just a lonely man
With my suitcase in my hand
Part of a traveling band on the road
(Girl I was always away from you)
I never needed anyone
And my music it was my fun
And I woke up late in life
To regrets it oooh

Brother brother reach out your hand
Sister stand up stand by your man
And let them know that you'll understand
You really need him
(I've always needed you yes it's true)
And the sun will shine on you
Help your love to pull on through
Life's a precious gift my friend
Don't waste it away now oooh

We all need love, we all need love
We all need love, we all need love...

There's no greatest thing in your life to please you
In another round so you better not waste it
There's no stronger force in life that's true
So reach out (reach out) take a little
