

What did you do with my Love

Double You

Remember all the
love we shared
but you never thought
I was at your side
(2x)

Remember all the love you gave
but you never saw
all my honesty
You were the ghost in me
haunting my dreams
but I was at your side

What did you do
what did you do with my love
oh baby
(2x)

You gave me the best you could
you gave me your heart
like nobody else
Remember all the
love we shared
but I never knew
I was at your side
Remember all the dreams we had
you took them away
and tore my dignity
Remember all the
love you showed
but you never came
I was at your side

What did you do
what did you do with my love
oh baby
(6x)
