

You're Not That Easy To Forget

Doug Stone

I did not call to fight
Or put tears in your eyes
I just needed a favor
Please kiss our babies' cheeks
And hug them once for me
Am I okay? yeah
But why did you ask?
I thought you did not care
Now don't you start cryin'
If you need me, I will be there

It was you who said we were through
I knew that it was just a lie
To tell you the truth
You're not easy to forget

I miss your voice
Your soft tender touch
The sounds of our kids at play
I'm only half the man I was
Since I've been away
What did you say? yeah
I'll be right over
Please don't change your mind
Although it's been hell on me
You answered my prayers in time

Oh, it's you who said we were through
I knew that it was just a lie
To tell you the truth
You're not easy to forget

Remember the first time you had second thoughts
And how you broke my heart
But to tell you the truth
You're not that easy to... forget
To tell you the truth
You're not that easy to... forget
