

Easier In Concept

Easier in concept

Gotta be there for myself right now
It was easier in concept
Gotta turn to my pen again
Find peace in the process
I've done this before, I know
I'm a pro, I can handle it, I know
Till we lock eyes, butterflies, I know
Got a new crush, can I [?]

We can have fun, keep it so simple
Gonna make him jealous, not my issue
I'm a free spirit, you could feel free too
I know that it's different 'cause I'm so special

Gotta be there for myself right now
It was easier in concept
Gotta turn to my pen again
Find peace in the process
I've done this before, I know
I'm a pro, I can handle it, I know
Till we lock eyes, butterflies, I know
Got a new woo, can I [?]

Gotta be there for myself right now
It was easier in concept
Gotta turn to my pen again
Find peace in the process

Being myself more, my true colors so pretty
That's funny, they scarred me, I got all shy
Withdrawn, anxiety, jealous, OD
So they criticized me

Gotta be there for myself right now
It was easier in concept
Gotta turn to my pen again
Find peace in the process
I've done this before, I know
I'm a pro, I can handle it, I know
Till we lock eyes, butterflies, I know
Got a new woo, can I [?]

Gotta know I'm whole, so, so complete
Got a feeling, you know, know, used to lonely
Gotta know I'm whole, so, so complete
Got a feeling, you know (got a feeling, you know)

Gotta be there for myself right now
It was easier in concept
Gotta turn to my pen again
Find peace in the process
I've done this before, I know
I'm a pro, I can handle it, I know
Till we lock eyes, butterflies, I know
Got a new woo

Got a new woo, so, so complete
Got a feeling, you know... used to lonely
Got a new woo, so, so complete
Got a feeling, you know, got a feeling, you know
