

False Perspectives

Dounia

Grew up thinking that I wasn't good enough
Never saw a girl like me on magazines
Misunderstood, hide away find friends in fairytales
Soon enough found e-solace, glued to my screen

But the camera didn't show my beauty
I was scammed by own reflection
It could never really do me justice
Gorgeous
I see it clearly

Just another false perspective
Just like my exes'
It could never do me justice
All false perspectives

My flaws all make me flawless
Complete don't need your compliments
Don't mean I'm weak when I need love
Be a G feed into my confidence

Maybe I'm not so simple
I'm worth the investment though
Centered and I'm sensitive
I'm who I always to be
Wanted to be

This camera doesn't show my beauty
Scammed by own reflection
It could never really do me justice
Gorgeous
I see it clearly

Just another false perspective
Just like my exes'
It could never do me justice
All false perspectives
Just another false perspective
Just like my exes'
They could never do me justice
All false perspectives
