Dounia

You don't have to resist  
Let's just kiss  
Blue aura, bubble gum pink lips  
I'ma foreign shorty, I add spice  
I want you now and I won't ask twice

Been thru enough, now it's time to flex  
Flex flex  
I'm doing it for you  
Hitting all the boxes  
Check, check

I think I earned it  
I deserve it  
Can I just flex?  
Think I earned it  
I deserve it  
Let me just flex

I earned it  
I deserve it  
Let me just flex  
Earned it  
I deserve it  
Let me just flex

Wish I could stay up for days  
And just work on the craft  
I could get love and lust anywhere  
I need more than that

Let's keep humble off the table  
Let's just skip to the facts  
Try to play it safe, either way  
Lame shorties will feel attacked

I think I earned it  
I deserve it  
Can I just flex?

Earned it  
I deserve it  
Let me just flex  
Flex
