

GONE GRL

Dounia

Don't know what you got 'til it's gone and I'm gone now, baby
Don't know what you want 'til it's gone and I'm gone now, baby
Don't know what you got 'til it's gone and I'm gone now, baby
Don't know what you want 'til it's gone and I'm gone now

Thought you were the one, turns out you was [?]
You caught up on the kitty, you can't think outside the box, oh
, oh
Outside, outside, you can't think outside the box, oh, outside
Outside (Outside)
You live and you learn muhfucka you a lesson
You was gettin' me ready for brand new blessings
And it all starts to make sense in time
It was written in the stars, now you fall on mine
Reflected back, all the parts in me
I had, to give more love to
It was to look at first, I admit
I ain't wanna look at first, I admit but I did (But I did)
They be givin' all type of apologies, yeah
I be tryna heal and maybe it's just me
Actin' like all of it ain't a two-way street, but
I'm the only side, take accountability, yeah
Maybe I'm above it, maybe doing God's work
Fuck it though for now I know I'ma always come first
Wish I could delete me from your memory
Pussy boy, insecure, it was obvious to me
I can admit when I was runnin' on ego, look back and assess it
Still don't feel the need to, hold onto resentment
I was open to, healing convos but I get it
'Cause we got different paths, let it go, if he regrets it
But sometimes you pure, intuition you will win to a lesson
Student of life, God knows but I am [?]
I'm [?] and fuck shit and trying to dissect it
Can I open up and expect to feel connect?
But that was a dark time
Now I see light, light, light
That was a dark time
Now I feel light, light, light
When I took on your vibe like that
Should've just get mine
When I took on your vibe like that
Should've just get mine
