

lost in myself

Dounia

I won't teach you how to be safe
You gotta take a risk with me
I can't behave
The reward plenty
No biggie

Through all your antics
I can't leave you stranded
I heard we planned this
It's hard to imagine

Getting lost in myself
Lost in myself (Lost)
Getting lost in myself
Lost in myself

Lost in myself
Heard that's the key
Violet flame
Hoping you'll find me
Lost in myself
I love it here
Neon hearts in my eyes
Blowing kisses in the mirror

Quantum jumping
Playboy bunny
Mirror gazing
I feel yummy
Looking at progress
Isn't it lovely
It get dark, I stay sunny
Eyes on the prize
I stay tantalized
I'm friends with my reflection
They got mask on still
Can't stand the lies
I'm distant, apprehensive
I been chillin, talking less and less
'Cause my words getting more expensive
I just sit back and I magnetize
It's destined, it's effortless

You endearing
Caught the Dounia fever
I could never blame you
Cosmic goddess
Got you locked in
Not unusual to scare you
Write me love songs
Pour your heart out
Deep inside my dreams, I hear you
I could run anywhere I want
Somehow I still feel like I'm near you

Through all your antics
I can't leave you stranded

I heard we planned this
It's hard to imagine

Getting lost in myself
Lost in myself (Lost)
Getting lost in myself
Lost in myself
