

# SAW IT FIRST

Dounia

I know it's killin' you  
Your ego's such a curse  
I know you wanna talk  
But you can't muster up the words  
She's so wavy, she a boss  
She gon' win until it hurts  
You doubted every step  
One day you say you saw it first

Saw it first  
One day you say you saw it first  
You saw it first (You saw it first)  
One day you say you saw it first  
You saw it first (You saw it first)  
One day you say you saw it first  
You saw it first (You saw it first)  
One day you say you saw it first

Yeah, I got the magic touch, fly as fuck  
Douns in the room, so they know what's up  
View in the stu' with the boos in the cut  
Mad lit, z3nned out, green tea in my cup  
VP of sum', I still make him blush  
Post a pic, cuffed up, then I hear hearts crush  
Then I hear hearts crush  
We can still link up, just keep it on the hush

I know it's killin' you  
Your ego's such a curse  
I know you wanna talk  
But you can't muster up the words  
She's so wavy, she a boss  
She gon' win until it hurts  
You doubted every step  
One day you say you saw it first

Saw it first  
One day you say you saw it first  
You saw it first  
One day you say you saw it first  
You saw it first  
One day you say you saw it first  
You saw it first  
One day you'll say you saw it first

You the one who settled, why you mad at me?  
I guess that's life, oui, oui, c'est la vie  
See the tippy-top? That's where I'll be  
I'm a simple girl, I have simple needs  
I'm amused by the sound of my own laugh  
Bumpin' music, dancin' to my own track  
Kill 'em all, so I gotta pull up wearin' all black  
I'm a don, I'm the one and that's all facts

I know it's killin' you  
Your ego's such a curse  
I know you wanna talk

But you can't muster up the words  
She's so wavy, she a boss  
She gon' win until it hurts  
You doubted every step  
One day you'll say you saw it first

Saw it first  
One day you'll say you saw it first  
You saw it first (You saw it first)  
One day you say you saw it first  
You saw it first (You saw it first)  
One day you say you saw it first  
You saw it first (You saw it first)  
One day you say you saw it first

Saw it first, saw it first  
One day you say you saw it first  
You saw it first (You saw it first)  
One day you say you saw it first  
You saw it first  
You saw it first
