

# Simplify

Dounia

It's just a vibe  
If we simplify it  
It's just you and I  
No need to deny it

Why would I play with emotion  
When we got way way  
More, we got oceans  
Why not be here when you need me  
And be all that  
You need 'cause I'm greedy

It's just a vibe  
If we simplify it  
It's just you and I  
No need to deny it

We should just chill  
Going in for the kill  
Have you in your feel  
We should just chill  
You try but you can't  
I just hit different  
It's not what you said  
I know what you meant

It's just a vibe  
If we simplify it  
It's just you and I  
No need to deny it

Why would I play with emotion  
When we got way way  
More, we got oceans  
Why not be here when you need me  
And be all that  
You need 'cause I'm greedy

It's just a vibe  
If we simplify it  
It's just you and I  
No need to deny it

We should just chill  
Going in for the kill  
Have you in your feel  
We should just chill

We should just chill  
Going in for the kill  
Have you in your feel  
We should just chill

It's just a vibe  
If we simplify it  
It's just you and I  
No need to deny it

Why would I play with emotion  
When we got way way  
More, we got oceans  
Why not be here when you need me  
And be all that  
You need 'cause I'm greedy

It's just a vibe  
If we simplify it  
It's just you and I  
No need to deny it
