

## SPECIFIC

Dounia

I'm just a wholesome girl  
Barely cut out for Hollywood  
I don't be getting how they move  
I don't see how I ever could

I'm just here for the vibes  
If Dounia's involved, it's gonna be a good night, no doubt  
I keep things simplified  
If you're complicating, I'm sorry, I really gotta dip out  
I don't need a soul, end of the day  
If they're not adding on, then they're in the way  
Shorty tryna cuff, I'm too focused  
Moving on passion, I'm never going through the motions  
I don't do the most, 'cause I really got the sauce  
Yeah, I really got the potion  
I got a fetish for challenge deeper than a person  
You should see the quality of shorties that I'm curving  
I'm something different, I don't think nobody deserve it

Listen, I'm moving specific  
By the time I'm done, I'll be the best who ever did it  
Looking at the mirror, checking out the competition  
Never seen a girl like me, they calling me aggressive  
I did not take you personal, I took you as a lesson  
This is just some chill shit, baby, just imagine  
I'ma level up and then they're really gonna panic  
You don't want no problems with me, you don't want no static, yeah  
Listen, I'm moving specific  
They won't know what hit 'em by the time I'm really finished  
I'ma let you say it, let you come to the conclusion  
You still tryna brush it off, you cappin', playin' stupid (Yeah)

Halal shorty, wallah shorty  
Up all night talking to Allah shorty  
Yeah I guess I want a lot  
That list don't involve no shorty  
I don't need nobody  
I'm not pressin' nobody  
No, we cannot kiss, no, you cannot hit  
Open up your mouth, bae, come and let me spit  
My only intent's to set you up for success  
Damn you're really blessed, 'cause she right here in the flesh  
No, we cannot kiss, no, you cannot hit  
Open up your mouth, bae, come and let me spit  
My only intent's to set you up for success  
And damn you're really blessed, 'cause she right here in the flesh (Flesh)

I'm just here for the vibes  
If Dounia's involved, it's gonna be a good night, no doubt  
I keep things simplified  
If you're complicating, I'm sorry, I really gotta dip out
