

# Strung

Dounia

Haven't kissed anyone in a min  
I was wasting time, tryna make it work with him  
There was no attraction, wasn't even a fraction of this  
And baby you taxing but I guess I'll practice patience

Maybe you too young  
Baby you too fun  
The way we electric  
The way we laugh like kids  
Am I coming off strong?  
I could have you strung  
The way we electric  
The way we laugh like kids

I tend to give too much (much)  
I tend to run and rush (rush)  
Pull up, fall in love (love)  
Bae, I love your touch

I feel you feeling me  
Forcefield for your love  
I could be your fav  
Take you as you are  
Fatal attraction  
Wasn't even a fraction of this

Haven't kissed anyone in a min  
I was wasting time, tryna make it work with him  
I was wasting time, just tryna feel something  
You don't even try, and I feel everything

Maybe you too young  
Baby you too fun  
The way we electric  
The way we laugh like kids  
Am I coming off strong?  
I could have you strung  
The way we electric  
The way we laugh like kids
