

TEMPTATION

Dounia

Walk in with my head low
Secrets that you ain't know
One J and it's all out the window
Prolly shoulda been careful

You suggest we resist temptation
I don't care for it
I don't care for it
You suggest we resist temptation
I don't care for it
I don't care for it

He flirts with the idea of her
Distance 'cause he don't wanna get hurt
You suggest we resist temptation
You suggest we resist temptation

Still feel like a kid most times
Why a kid got the weight of the world on her?
Still act like a kid sometimes
Walk around mad hype, eyes full of wonder

Walk in with my head low
Secrets that you ain't know
One J and it's all out the window
Prolly shoulda been careful

You suggest we resist temptation
I don't care for it
I don't care for it
You suggest we resist temptation
You suggest we resist temptation
