

ZERO

Dounia

Tell me do you feel it?
'Cause I know I feel it, baby, come inside
Angels on the ceiling
Tell me why you playing when we feel so right?

I can tell that you want it most
I can tell that you want me closer
I can tell that you want it most
I can tell that you want me closer
I can tell that you want me most
I can tell that you want me closer
I can tell that you want it most
I can tell that you want it most

Baby, we can touch
This shit feel like love
Tell you to pull up
And maybe we can touch
Baby, we can touch
This shit feel like love
Tell you to pull up
And maybe we can touch

I don't care where you be
I don't care what you do
Long as when you with me
There's nobody else involved
There's nobody else but us
I don't really hit like this
I know I got you on lock
I know you wanna feel this bliss

Running on zero, running on E
No sleep, why I feel so free then?
So good, borderline deceiving
Make you feel like I'm never leaving
Running on zero, running on E
No sleep, why I feel so free then?
So good, borderline deceiving
Make you feel like I'm never leaving

Baby, we can touch
This shit feel like love
Tell you to pull up
And maybe we can touch
Baby, we can touch
This shit feel like love
Tell you to pull up
And maybe we can touch
