

## Born In A Storm

Douwe Bob

I was born in a storm  
On a night in December 1992  
My mother was a rock and roll dancer  
My father was a painter and a fool  
I was raised to be wild and free  
They said life's too short not to be  
And if life gives you lemons you just put them in your hand and  
squeeze  
And if the world gives you darkness you just flip the switch to  
see  
You've gotta make it shine  
I'm gonna make it shine  
I'm gonna make it shine

Everything can be too late, if it's not on time  
And if you look too far ahead, you could lose your mind  
And if you choose to shut your eyes, everything will pass you by  
Don't wait for your life to start, the world's a stage, just pick  
your part  
And step into the light  
...make it shine

I'm gonna make it shine  
I'm gonna make it shine  
I'm gonna make it shine

Why wait for a falling star  
When you could just shoot one down
