

Consider

Douwe Bob

Would you consider starting over again?
Would you consider forgiveness?
Would you consider coming back to me?
Could you forgive me my weakness?
I tore the letters that I wrote to you
The words I could not erase
I went the distance looking for the truth
When it was right in my face

I've had a revelation
You read my heart
And I have met your desire
I'm talking an elevation
We've got a chance
I wanna see us get higher

Consider my love
Would you consider my love again?
Consider my love
I'm talking elevation

They probably told you you should let me go
Your friends have told me the same
But now trying harder than you'll ever know
To not be drawn to your flame

I've had a revelation
You read my heart
And I have met your desire
I'm talking an elevation
We've got a chance
I wanna see us get higher

Consider my love
Would you consider my love again?
Consider my love
I'm talking an elevation

Would you consider my love?
Would you consider my love again?
Consider my love
Would you consider my love again?
Consider my love
Would you consider my love again?
Consider my love
I'm talking an elevation
