

Pour us another
We need some more fuel
I've heard all about it
From everybody but you
Oh, you say it don't matter
You say you don't care
But it's written all over your face
Brother, you know you're all over the place?

Hey cynic
The heart you put in it
Was more than you're willing to show
Hey cynic
Can't you admit it?
You love her and she doesn't know

You took her to Jimmy's
I heard you had a good time
They say you were dancing
Haven't seen you do that in a while
Oh, it's clear that she moves you
In more than one way
You're swaying all over the place
Brother, why so afraid to lose face?

Hey cynic
The heart you put in it
Was more than you're willing to show
Hey cynic
Can't you admit it?
You love her and she doesn't know

Let your guard down
Let someone in
Don't let your heart down
Pour us another
For me and my brother
You see we could use some more fuel

Hey cynic
The heart you put in it
Was more than you're willing to show
