

## Drop Of You

Douwe Bob

One more wine before I go  
One more drop of you  
Though I know I'm knee deep into losing you  
One more shot before I walk  
One more breath of air  
The damage done may not be worth repair

I got a lot to learn  
It's a long way to fall  
We had everything and then we drank it all  
I got a lot to learn  
A lot to learn, aha

One more try to get it right  
That's a crazy thought  
But sanity weighs heavy on my heart  
And seeds you plant are bound to grow  
Even if you turn  
You take all the classes but no lesson ever gets learnt

I got a lot to learn  
It's a long way to crawl  
We had everything and then we drank it all  
I got a lot to learn  
A lot to learn  
Women like you can kill  
'Cause men like me are weak  
Women like you can heal  
'Cause men like me are sick  
I got a lot to learn  
You got a lot to learn, aha

One more wine before I go  
One more drop of you
