

Electric Life

Douwe Bob

There's no pain in paradise
No heartbreak in heaven
No Mondays or traffic lights
How could it be real?
You're up near the satellites
You left in a second
Yeah, that was the only time
The earth stood still

Velvet skies when I close my eyes (Ah)
Free-falling into another space and time (Ah)
I miss you and your electric life
Beautiful to the bitter end (Ah)
You blew away like glitter in the wind (Ah)
I miss you and your electric life

Oh-oh-oh, your electric life
Oh-oh-oh, your electric life
(Oh-oh-oh) Your electric life
(Oh-oh-oh) Your electric life

Take a look at the Milky Way
At 11:11
Are any of these shooting stars
A message from you?
Is there any other way?
I've got millions of questions
But what always breaks my heart
Just like the truth, oh

Velvet skies when I close my eyes (Ah)
Free-falling into another space and time (Ah)
I miss you and your electric life
Beautiful to the bitter end (Ah)
You blew away like glitter in the wind (Ah)
I miss you and your electric life

(Oh-oh-oh) Oh, your electric life
(Oh-oh-oh) Your electric life
Oh-oh-oh, your electric life
(Oh-oh-oh) Oh, your electric life
(Oh-oh-oh) Ah, hmm, your electric life
(Oh-oh-oh) Oh, your electric life
(Oh-oh-oh) Oh, yeah, babe, your electric life
(Oh-oh-oh) Hmm-hmm, your electric life
(Oh-oh-oh) Oh, your electric life
(Oh-oh-oh) Oh, baby, your electric life
(Oh-oh-oh) Your electric life
(Oh-oh-oh) Your electric life
