

Gini

Douwe Bob

Hey it's pulling tricks
Don't like the way that it ticks
Will I ever get out of here
'Cause it's been too long since I've seen the sun
And had some good clean fun

She's been working overtime
She's about to lose her mind
Thinking of the things that she's to do
She's been working all the time
Hasn't had a drop of wine
For weeks she has been waiting for a cure

Gini let the good times take you home [x4]

Hey this whole building is grey
Cars grey and the sky's grey and the people are grey
Will I ever get out of here

She's been working overtime
She's about to lose her mind
Thinking of the things that she's to do
She's been working all the time
Hasn't had a drop of wine
For weeks she has been waiting for a cure

Gini let the good times take you home [x6]
Gini let the good time [x2]
Gini let the good times take you home [x3]
Gini let the good time [x2]
