

I'll Be Here

Douwe Bob

Love can make you grow
Make you grow up far
Or pull you closer
In our hearts we know
Why we got so far
Before we frozen

If you ever lose your way
I'll be there, I will guide you
If you're colors fade to grey
I'll be here right beside you

It's not like we didn't try
Please don't think we failed
We flew so high
Water's rising far
Still I cross them all
We are entwined

If you ever lose your way
I'll be there, I will guide you
If you're colors fade to grey
I'll be here right beside you

We made our gutters grow
The seeds of love we sow
We saw the roses bloom
They grew for me, they grew for you
I wanna tear them up
Up high you save my soul
