

Light of My Life

Douwe Bob

Hey, it's me were you already sleeping?
I know it's late but I just had to call
Are we still something you could believe in?
Am I too late to give it my all?
I see your light through the cracks in the wall

If we both say we're sorry
Would you say you still love me
Or am I already gone from your mind?
Could we talk just a little
Cause I'm stuck in the middle
Baby you are the light of my life

Tried to push you away but you only got closer
Oh the truth can hurt more than a lie
Keep telling yourself that our love is over
When you look in the eyes of some other guy
Do we hang up without one more try?

If we both say we're sorry
Would you say you still love me
Or am I already gone from your mind?
Could we talk just a little
Cause I'm stuck in the middle
Baby you are the light of my life

Isn't it cruel, cruel to deny
Yourself to be loved by the love of your life
Wouldn't know what to do without you by my side
I'd be living a lie

If we both say we're sorry
Would you say you still love me
Or am I already gone from your mind?
Could we talk just a little
Cause I'm stuck in the middle
Baby you are the light of my life

Oehoe
You're the light of my life
Oehoe
You're the light, light of my life
Oehoe
Babe never gonna give you up
Babe never gonna let you down
