

# Make Believe

Douwe Bob

It seems they hold the diamonds straight from the mine  
You kept on digging brother, the well's run dry  
You ran away from home, what did you find?  
Is this your great escape that jug o' wine?

It's a shame, such a shame

It's only make believe  
It's only make believe, my friend  
It's only make believe, my friend

Look at the starlings how they, they paint the sky  
And how they need each other like you and I  
Here in the swarm of bees outside their hive  
Apart for everyone, all in good time

We are the same, we are the same

It's only make believe  
It's only make believe, my friend  
It's only make believe, my friend

The wolf is chasing us and it won't quit  
Maybe the art of life's not becoming it  
It's all a game, it's not a game  
Be the flame, be the flame

It's only make believe  
It's only make believe, my friend  
It's only make believe  
It's only make believe, my friend  
It's only make believe

It's only make believe  
It's only make believe  
It's only make believe  
It's only make believe  
It's only make believe
