

Out On The Road

Douwe Bob

It's getting hazy, it's getting late
I'm getting darker, I'm at the gate
I know I'm trouble
Curtains closing, I'm in a state

Are you still with me?
Are you my friend?
I feel I need you until it ends
When you said you'd be there
Like you said before
Did you pretend?

Please don't leave me out on the road
You can't just leave me out in the cold
I'm afraid you have to carry me home
Don't do me like you done me before

I wanna drink an ocean
To numb my brain
Take whatever you give me
To ease the pain
'Cause I know what's coming
It's raging and burning
Through my veins, hmm

Could you hold me down?
And carry the stones
Tryin'tame the fire
Would you hold your own?
When I'm way outta line
Cruel and crazy
It's shaking your bones

Please don't leave me out on the road
You can't just leave me out in the cold
No, I'm afraid you have to carry me home
Don't do me like you done me before

Don't do me like you done me
Don't you do me like you done me before
