

## She Knows

Douwe Bob

She likes to read her books  
And staring at the walls she painted  
The scenes, the places, her dreams  
She doesn't care that much  
For going out at night she's different  
She knows. She's leaving alone

Every day's a holiday and in her mind she's been around the world  
Now it may seem she's locked in time but oh my friend she's full of life I know  
I know. I know  
She knows

They think there's something wrong  
She reads it in their eyes. It's alright. As long  
As she can do whatever she wants

Every day's a holiday and in her mind she's been around the world  
Now it may seem she's locked in time but oh my friend she's full of life I know  
I know. I know  
She knows

Every day's a holiday and in her mind she's been around the world
