Shine

Douwe Bob

Some people may seem out for glory
Some never look you in the eye
Some people kick up without warning
Some people hit you from behind

The world won't play a broken record
How come you keep on wasting time?
Mind what you say because it echoes

I wanna see you shine
I wanna see you shine

Some people make it before you know it
Some take their time to find a way
Some get so far before they blow it
Some people drive the world insane

The world won't play a broken record
Maybe it's time to change the song
Get on up, make up your mind
The world won't wait

I wanna see you shine
Wanna see you shine
'Cause you're just wasting time
I wanna see you shine

I wish you would see, the things that I see
When I look at you, I see a man
Heart full of soul
So much to give, so much to show

Shine
I wanna see you shine
I wanna see you shine
'Cause you're just wasting time
I wanna see you shine

The world won't play a broken record
I wanna see you shine
Mind what you say, 'cause it echoes
'Cause you're just wasting time
The world won't play a broken record
I wanna see you shine
Mind what you say, 'cause it echoes
I wanna see you shine
