

Step Outside

Douwe Bob

I step outside and let all your light in
The sky was dark, then you came in shinin'
You give me so much more to live for
You're to die for

I bought myself a house
I drive a fancy car
I made a lot of friends
I traveled wide and far
Played along with all the lies
Chasing fortune and fame
Now I realize it's all a game

I step outside and let all your light in
The sky was dark, then you came in shinin'
You give me so much more to live for
You're to die for
Earth was cold when it turned without you
You're the sun, I circle around you
You give me so much more to live for
You're to die for

I never thought I'd be
The man I am today
Oh, I never thought I'd see
The colors shine my way
Oh, yes, and I'd be such a fool
To let it slip through my hands
And it's because of you
I've got a chance

I step outside and let all your light in
The sky was dark, then you came in shinin'
You give me so much more to live for
You're to die for
Earth was cold when it turned without you
You're the sun, I circle around you
You give me so much more to live for
You're to die for

I step outside and let all your light in
The sky was dark, then you came in shinin'
You give me so much more to live for
You're to die for
Earth was cold when it turned without you
You're my sun, I circle around you
You give me so much more to live for
You're to die for

You give me so much more to live for
You're to die for
