Until Then

Douwe Bob

One, two, three, four

Somewhere down the line
I believe in time
We can find each other
Until that day is due
I guess I'll see it through
And settle for another

And it's probably good
We're doing what we should
When you're feeling blue
Baby, you just call me
'Cause it gets lonely, mighty lonely

I believe we'll love again
But know that until then
I'll be a friend

We just can't hold on
Still my love is strong
And it's getting stronger
Hey, I see you in my dreams
The nights of make believe
Wishing they'd be longer

And it's probably good
We're doing what we should
When you're feeling blue
Baby, you just call me
'Cause it gets lonely, mighty lonely

I believe we'll love again
But know that until then
I'll be a friend
I'll be a friend
