

Dove Cameron and Ryan McCartan - Glowing in the Dark

Dove Cameron

You know how I get
when the sun goes down
How it feels when
No one's around

I know, I wanna
know-ow-ow
I know, I wanna
Know-ow
I get kinda lost and I can't see straight
Hate it, but it's
Just what we take

I know, I wanna know-ow-ow
I know, I wanna know-ow

As been bitten by the lonely,
But when I'm not the only
When I'm, when I'm not the only
One who feels it,
Maybe it's sick to say
But it helps that you feel the same

I know, I wanna
know-ow-ow
(When the
Lights go out)

We're glowing in the dark
We started from a spark
We're lights that never go out
Like we've never been down
We're glowing in the dark
We'll light up Central Park
We're lights that never go out
Cause you're here with me now
Dark days, but it's alright
So fine, every night
Oh oh, woah oh oh
We're glowing in the dark
We started from a spark
We're lights that never go out
Like we've never been down
Glowing in the dark

Doing two-way when way above the clouds
Rooftop, yeah, we're just hanging out
I know, I wanna know-ow-ow
I know, I wanna know-ow
Now we're looking down like we've got no fear
We've got dreams and it starts right here

I know, I wanna know-ow-ow
I know, I wanna know-ow

We get bitten by the lonely,
But when we're not the only

You're, you're not the only
Once you know the way
You get through the night
It's to bring on a little bright

I know, I wanna know-ow-ow
(When the lights go out)

We're glowing in the dark
We started from a spark
We're lights that never go out
Like we've never been down
We're glowing in the dark
We'll light up Central Park
We're lights that never go out
Cause you're here with me now
Dark days, but it's alright
So fine, every night
Oh oh, woah oh oh
We're glowing in the dark
We started from a spark
We're lights that never go out
Like we've never been down
Glowing in the dark

When I'm bitten by the lonely
You can get to know me

I know, I wanna know-ow-ow

We're glowing in the dark
We started from a spark
We're lights that never go out
Like we've never been down
We're glowing in the dark
We'll light up Central Park
We're lights that never go out
Cause you're here with me now
Dark days, but it's alright
So fine, every night
Oh oh, woah oh oh
We're glowing in the dark
We started from a spark
We're lights that never go out
Like we've never been down
Glowing in the dark!
