

Good Is The New Bad

Dove Cameron

Call it bad, call it good
Call it even if you could
Call it good, call it bad
It's the best you ever had

We know what's hot, what's not
We strike a pose and then they take a shot
They get in close, they try to run the spot
We come to show 'em what we got, we got

It's time to make a stand
We're breaking through and now we're in demand
We're here for good it's really not so bad
So shout it out and give it all you have

Bad was all the rage last week
But good has got a wicked beat

Good is the new bad
Good is the new bad
We can feel the mad love
Gimme more of

Bad is the new good
Bad is the new good
We can feel the mad love
I think that we should
I think that we should
I think that we should

Call it bad, call it good
Call it even if you could
Call it good, call it bad
It's the best you ever had

We use to love the dark
But then we saw the light and felt a spark
We bring the fire, make it better and better
'Cause good is back and now it's badder than ever

Bad was all the rage last week
But good has got a wicked beat

Good is the new bad
Good is the new bad
We can feel the mad love
Gimme more of

Bad is the new good
Bad is the new good
We can feel the mad love
I think that we should

Good is the new bad
Good is the new bad
We can feel the mad love
Gimme more of

Bad is the new good
Bad is the new good
We can feel the mad love
I think that we should
I think that we should
I think that we should

Call it bad, call it good
Call it even if you could
Call it good, call it bad
It's the best you ever had
