

## Like us

Dove Cameron

5, 4, 3, 2, 1  
We're countin' down, down  
Get ready  
From this moment on  
The future is now, now  
Get ready

Lifting' off like spaceships in the night  
We're outta sight  
Brighter than the sun  
We're countin' down

Everybody move to the beat of your heart  
Dancing' through infinity, beyond the stars  
There's no lookin' back, 'cause here we come  
The future sounds, oh, the future sounds like us  
We're takin' off at the speed of light  
Blowin' through your speakers from the satellites  
What you're gonna hear is not what it was  
The future sounds, oh, the future sounds like us

Can you hear the rush  
We're takin' over, o-o-over, yeah  
Futuristic drums are blastin' louder, louder, yeah

Shootin' through the sky, flashes of light  
We're out of sight, yeah  
Year three thousand twelve  
We're comin' for ya', oh yeah

Everybody move to the beat of your heart  
Dancin' through infinity, beyond the stars  
There's no lookin' back, 'cause here we come  
The future sounds, oh, the future sounds like us  
We're takin' off at the speed of light  
Blowin' through your speakers from the satellites  
What you're gonna hear is not what it was  
The future sounds, oh, the future sounds like us

5, 4, 3, 2, 1  
We counting down, d-down  
The future is noooooooooooooooow  
Woo!

Everybody move to the beat of your heart (Oh, yeah)  
Dancin' through infinity, beyond the stars  
There's no lookin' back, 'cause here we come  
The future sounds, oh, the future sounds like us  
We're takin' off at the speed of light  
Blowin' through your speakers from the satellites (Here we come)  
What you're gonna hear is not what it was  
The future sounds, oh, the future sounds like us

Can you hear the rush?  
We're takin' over, over, over
