

# One Second Chance

Dove Cameron

I should never have tagged the principal's car  
And surely not signed my name  
How I hated this place when I first arrived  
But now I'm glad I came

Found out that I'm not alone  
People make mistakes  
Make amends, find new friends  
One second chance is all it takes  
Yeah  
One second chance is all it takes

He stole a backpack, a bike and a boat  
Just wanted some souvenirs  
She sold all her mom's shoes  
Ditched the seventh grade  
He pierced his parakeet's ears

What they did was not so bad

Did I mention a car full of snakes?

Realign, you'll be fine  
One second chance is all it takes  
Yeah

One second chance is all it takes

Whatever happened, we'll understand  
Here we're judgement-free

I just can't tell my tale

Your secret's safe with me, safe with me  
Girl, you need a hand or a shoulder, a knee  
Something to help you feel strong

I'm not gonna talk, see these lips are sealed  
Now everyone run along

You are not a rotten kid

And I've made some humongous mistakes  
Yeah

I got through, you can too

One second chance is all it takes  
Yeah  
One second chance

Is all it takes
