

So Good

Dove Cameron

Pop the champagne
I'm feeling elevated
Feeling motivated
Oh there's something happening in my brain

I guess
It's just one of those days
I'm waking up to someone
Feeling fucking awesome
I'm not sad when I'm watching him leave

Low to high
Oh my my
I'm feeling so fucking good right now
I just wanna get drunk right now
I feel so damn alive
I don't wanna come down
I'm feeling so fucking good right now

I can't contain it
Maybe it was the breakup
Maybe I just woke up
On the right side of my empty bed

Maybe it's nothing
Increase the dopamine
That keeps on stoking me
But I like what it's done to my head

Low to high
Oh my my
I'm feeling so fucking good right now
I just wanna get drunk right now
I feel so damn alive
I don't wanna come down
I'm feeling so fucking good right now

And I can't explain it
But I hope it stays here
No I can't explain it
But I hope it stays here

Cuz I'm feeling so fucking good right now
I just wanna get drunk right now
I feel so damn alive
I don't wanna come down
Cuz I'm feeling so fucking good right now

Right now, right now, right now, right now
Right now, right now, right now, right now
