

# Still

Dove Cameron

Misbehavin'  
Fornicatin'

Man on the screen they only see whatever you want them to see  
We only know, higher than high, lower than low, no in-between

Radio is always playin'  
High-speed train is hydroplanin'  
Bubblewrap the heart in plastic  
The question we're scared of asking

Can we just stand still?  
I will if you will  
Find some time to kill  
Can we just stand  
Still?

Face in the crowd, merry-go-  
round, kiss me with your razor blade mouth  
Train of the South, first to get out, we could be what they dre  
am about

Super Nova, self erasin'  
Hourglass is always drainin'  
Is the rope of time elastic?  
The question we're scared of asking

Can we just stand still?  
I will if you will  
Find some time to kill  
Can we just stand  
Still?

How dare you dare me to love you  
When you can't love me too?  
How dare you dare me to love you?  
If you jump, I will too  
If you jump, I will too
