

Whatever You Like

Dove Cameron

I could drive around with you
My darling, for the rest of my life
Let's sneak out of the parties early
Go home at the end of the night

I wanna meet your mother
I think I already love her
Speeding across state lines with your hands on my thighs
I think I'll never recover
My Freddie Mercury, Steve McQueen
Tony Soprano, Dream Machine
It's like I made you up and now you're next to me

I could drive around with you
My darling, for the rest of my life
Let's sneak out of the parties early
Go home at the end of the night

Better than the movies how you happen to me
Like you put a pin in time (Oh)
Say you wanna do this forever
We can do whatever you like

You got my ear like I'm van Gogh
So up my skirt like I'm Marilyn Monroe
Hold me like the little cigarette in your fingers
20s in your wallet next to my dirty pictures
Love to make you laugh while you're making me dinner
Watching you watching me in the mirror

I could drive around with you
My darling, for the rest of my life
Let's sneak out of the parties early
Go home at the end of the night

Better than the movies how you happen to me
Like you put a pin in time (Oh)
Say you wanna do this forever
We can do whatever you like
Whatever you like

It's like I made you up and now you're next to me
Before you were just someone, now you're everything

I could drive around with you
My darling, for the rest of my life
Let's sneak out of the parties early
Go home at the end of the night

Better than the movies how you happen to me
Like you put a pin in time (Oh)
Say you wanna do this forever
We can do whatever you like

Whatever you like
