

For Tomorrow

Doves

Orphan to morphine
Swine to get the pearl
Go around my day in eighty worlds
You've seen me at my best
You've nursed me through my worst
I hope to God I didn't steal your soul

Spend my days wondering what's happened to us?
Just try and talk to me
Are we really from different worlds?

From tomorrow we will live again
For tomorrow, we can see hope
No more sorrow, you will love again
I know, I know

So all our dreams of families
Slip by into the breeze
So have we really locked that door?
Spend my days on motorways
Crashing to a void
I hope to God you're not keeping score
Keeping score

Just try and talk to me
Are we really from different worlds?
So, for tomorrow we will breathe again
For tomorrow we can see home
No more sorrow we will laugh again
I hope, I hope

Yeah, for tomorrow
Yeah, for tomorrow

Spend my days wondering what's happened to us?
Oh, come on baby breathe, there'll be no more succour
For tomorrow

So all our dreams of families
Slip by into the breeze
Spend my days on motorways
Crashing to a void
Crashing to avoid
Yeah, for tomorrow
