

## La Serenissima

### Down Low

Baby when you're not here, I kind of like feel down  
I'm like disappointed that things between us couldn't  
work out

You're always around when I'm feeling down bringing me  
the sound

From the first time I meet you, I know we'd be together  
You and me whatever happens stay tight forever  
Our relationship cause you were never be touched  
In good and bad together like stars against hutch  
What a rush, baby all I wanted was to cores you  
And not sent these words, they possess you  
Can't test you, but they don't understand the knowledge  
of you past  
Stay quiet and we can make it last  
Now the four elements or shall I say five  
And if you believe in this, than we'll stay alive  
And that's Love, Pain, Suffer and Sorrow  
But don't forget about the tears that come tomorrow  
Wish you were here next to me so I can tell you  
That I fulfill you every need  
I'm gonna search for her from Jamaica to Greece  
So sit back and chill, and let your soul be an ease

You're always around when I'm feeling down bringing me  
the sound

(When you feeling down, I'm gonna be around)

You're always around when I'm feeling down bringing me  
the sound

(When you feeling all down, I'm gonna be around)

Come along with me, I will make you see, what you  
really need, come along with me

You're always around when I'm feeling down bringing me  
the sound

Bringing me the sound

Musically she ain't got no front tears  
From soul to classical as you already hear  
Now bounce with these loots make me wanna say  
Without you I pray, whiteout you I Cray  
Express myself in the most natural way  
And this is coming from my heart on the cloudy day  
Baby, it's so good being next to you  
Whoever said commitments ain't possible  
Hasn't dated you  
See, people don't understand you simplicity  
But the mystery is how you stand up the misery  
I guess is versatility or spirituality  
Good meanings....

The truth is the truth so It can't be denied  
The journey is with you and I will tell no lie  
I said it before and I say it again  
Listen to this, as the journey begins

You're always around when I'm feeling down bringing me  
the sound

(When you feeling down, I'm gonna be around)  
You're always around when I'm feeling down bringing me  
the sound

(When you feeling down, I'm gonna be around)  
Come along with me, I will make you see, what you  
really need, come along with me  
You're always around when I'm feeling down bringing me  
the sound

(When you feeling all down, I'm gonna be around)  
You're always around when I'm feeling down bringing me  
the sound  
You're always around when I'm feeling down bringing me  
the sound

(When you feeling down, I'm gonna be around)

When you feeling all down, I'm gonna be around! Yeah!  
When you feeling all down, when you feeling all down  
When you feeling all down, I'm gonna be around!!

Bringing me the sound
