

Feel so Alive

Down with Webster

I'm shooting for the stars, no matter how far
And there's nothing you can say to me
It just won't phase me
I'm going for it all, so what if I fall?
And there's nothing you can say to me
It just won't break me

You shouldn't hold on, just let it all go
It's gonna feel wrong to forget what you know

Cause nothing else matters
Go higher, go harder, go faster
And don't worry 'bout after
Cause sometimes you gotta lose it all
And let it all die

Just to feel so alive
Just to feel so alive
When it comes down to the wire
I'm walking through the fire
Just to feel so alive

Till the wheels fall off I just won't stop
And there's nothing you can say to me
It just won't phase me
So deal me in the cards, whatever they are
And there's nothing you can say to me
It just won't break me

You shouldn't hold on, just let it all go
It's gonna feel wrong to forget what you know

Cause nothing else matters
Go higher, go harder, go faster
And don't worry 'bout after
Cause sometimes you gotta lose it all
And let it all die

Just to feel so alive
Just to feel so alive
When it comes down to the wire
I'm walking through the fire
Just to feel so alive

I ain't felt like this in so long
Hands up, go long
But just stop, make it drop
Get your roll on
Everything's a gamble, baby
You can call me Moto
I'm just falling for the feeling
And no longer try'na hold on
Forget 'bout the future, I'm too faded to feel it
Not superstitious but I embody the spirit
Of saying fuck it, what's it to ya?
I'll break all your computers
Try'na calculate the auga

I'm just jamming, yelling boo-yah!

We all fall like leaves in September
So let it rain and feel the thunder
Let the waves crash down, pull you under
And let your heart go boom like a drummer

Just to feel so alive
Just to feel so alive
When it comes down to the wire
I'm walking through the fire
Just to feel so alive
