

Nothings Cool

Down with Webster

Do just what you like
We on the right track, we got the right
So whatever you do, just make it right
They live the lifestyle, we live the life

You tell me nothing's cool anymore
But I ask you was it ever now?
You tell me nothing's cool anymore
But it's the same as it ever was
(Same as it ever- same- same as it ever was)
Same as it ever was
The only thing that's changed is you
I'm the same, it's the same as it ever was
You tell me nothing's cool anymore

(Cool anymore)
(Nothing's cool anymore)
(Cool anymore)
(Nothing's cool anymore)

Do just what you like
Can't get the time back, we on the rise
So whatever you do, just make it right
They live the lifestyle, we live the life

You tell me nothing's cool anymore
But I ask you was it ever now?
You tell me nothing's cool anymore
But it's the same as it ever was
(Same as it ever- same- same as it ever was)
Same as it ever was
The only thing that's changed is you
I'm the same, it's the same as it ever was
You tell me nothing's cool anymore

(Cool anymore)
(Nothing's cool anymore)
(Cool anymore)
(Nothing's cool anymore)

When you were out, did you find what you were looking for?
Well did you find what you were looking for?
When you were out, did you find what you were looking for?
Well did you find what you were looking for?
I've been rolling nine-five to closing
High my emotion
High time she notice
When you were out, did you find what you were looking for?
Well did you find what you were looking for?

Well did you find what you were looking for?
Well did you find what you were looking for?
(You were out, you were out)
Well did you find what you were looking for?
(You were out, you were out oh oh)
Well did you find what you were looking for?
(You were out, you were out)

(Cool anymore)
Nothing's cool anymore
(You were out, you were out)
(Cool anymore)
(Nothing's cool anymore)
