

# Rockets

## Down with Webster

I want that first-class livin'  
But from the night until the mornin'  
I'm goin' on a mission  
Do anything without a warnin'  
Hold up wait a minute let me do this  
It's like I'm elevating  
Permitted buckle up keep it moving  
This life could be amazing

We're going up-up-up  
Like rockets in the air now  
And we can set it off-off-off  
Like we don't have a care now  
So goin' down-down-down  
We're leavin' footprints on the moon  
We're goin' up-up-up  
Like rockets in the air now

(We're goin' up)  
(Like rockets in the-)

Hold up wait a minute let me do this  
It's like I'm elevating  
Permitted buckle up keep it moving  
This life could be amazing  
My arms are my wingspan  
Your engine is your heart  
Oh will you be my passenger?  
And head up to the stars

We're going up-up-up  
Like rockets in the air now  
And we can set it off-off-off  
Like we don't have a care now  
So goin' down-down-down  
We're leavin' footprints on the moon  
We're goin' up-up-up  
Like rockets in the air now

(We're goin' up)  
(Like rockets in the-)  
(Like rockets in the-)

Goin' high, goin' high  
I've been jumping since the jump  
And overnight, overnight  
We just took it up above an elevator  
Race, stakes, do some shit you've never seen  
If you're not tryna play the background, baby  
Come and join the team!  
Stealin' all, it's not a game  
Hit like we ain't gotta aim  
Us and them are not the same  
We got higher every day  
Promise you it's not a phase  
We don't ever gotta change  
Work can feel like holidays, baby

We're the ones who got away

We're gonna fly away  
No we don't need nobody holding us down  
Not even gravity  
Let's be those rockets in the air now

(Like rockets in the-)  
Let's be those rockets in the air now  
Let's be those rockets in the air now
