

# Wrong Places

Down with Webster

Time  
Empty your mind, you're dressed to arrive tonight  
Yes we're alive but don't you let it go  
Time ain't for sure  
Don't you wanna know her?  
Time's at your door  
Everyone is posed  
Don't you get too close  
Don't let them know  
Time's at your door  
Time's up

'Cause we got all the right friends in all the wrong places  
All the right moves in all the wrong spaces  
All the lights dim, we own the night  
All the lights dim, we own the night  
'Cause we got all the right friends in all the wrong places  
All the right moves in all the wrong spaces  
All the lights dim, we own the night  
All the lights dim, we own the night

Drop top, blacked out, trick of the light  
Don't let jocks fool you, we livin' the life  
Take the wrong road and make the wrong right  
And get to that height if it takes us all night  
Call me out, , now I'm sinkin' low  
Been losin' my friends since five in the morn  
And don't you hold back  
I hope the sun black  
And hit the lights 'cause this lights is a trap

Everyone is posed  
Don't you get too close  
Don't let them know  
Time's at your door  
Time's up

'Cause we got all the right friends in all the wrong places  
All the right moves in all the wrong spaces  
All the lights dim, we own the night  
All the lights dim, we own the night  
'Cause we got all the right friends in all the wrong places  
All the right moves in all the wrong spaces  
All the lights dim, we own the night  
All the lights dim, we own the night

Can you feel this moment?  
Nothing comes from holdin' down  
Suddenly we fallin'  
Triggered by our hopes and doubts  
As long as we stay golden  
Nothing's standin' in the way  
When all the doors are open  
It's impossible to stay

'Cause we got all the right friends in all the wrong places  
All the right moves in all the wrong spaces

All the lights dim, we own the night  
All the lights dim, we own the night  
'Cause we got all the right friends in all the wrong places  
All the right moves in all the wrong spaces  
All the lights dim, we own the night  
All the lights dim, we own the night

Empty your mind, you're dressed to arrive tonight  
Yes we're alive, yes we're alive tonight  
Empty your mind, you're dressed to arrive tonight  
Yes we're alive but time's up
