

Everything To Lose

Downhere

I don't know why I do what I do
I don't know why I say what I say sometimes

I don't how for all you forgive
I can take you for granted a bit
Anytime

Everytime I come running back
I don't know how you don't keep track

With everything to lose
With everything to lose
You gave everything to have my heart belong to you
To you

I don't know how you love like you love
I don't know how you give like you give
All the time

I don't know how you still carry through
When all the world turns a back on you
All the time

Does it ever grieve you a bit
When you think of what you gave for it

With everything to lose
With everything to lose
You gave everything to have my heart belong to you
To you

Sing to me
Sing to me
One more song of grace
Sing to me
Sing to me
From the love you gave
Sing a song that carries me
Through the dark of night
Sing a song that carries me
Through

Everytime you take me back
I don't know how you don't keep track

With everything to lose
With everything to lose
You gave everything to have my heart belong to you
To you

With everything to lose
You had everything to lose
You gave enothing back to have my heart belong to you
To you

You have my hear
You have my soul

You have my life
Because you make me whole
