

Household Name

Downhere

When you're a household name
When they put you up in lights

When you're a household name
When the clubs in town all fight
Over you

When you're big in China
Everybody wants to have your autograph

When you're a household name
You're the hottest thing around

When you're a household name
When the paparazzi all chase you down

When you're big in Europe
When you buy your own Learjet

When you become a household name
The song I sing will be the same
When you become a household name
What will you say to me?
What will you say to me?

When you're a household name
When you get your every wish

When you're a household name
When they seat you courtside with
Jack and Ben

When the population goes to bed and dreams
That they met you

When you become a household name
The song I sing will be the same
When you become a household name
What will you say to me?
What will you say to me?

What did you do with orphans and widows?
Did you come to me?

When I was in need when I was in prison
Did you visit me?

And when I was starving did you feed me?
Or pass me by?

And when I was sick and dying in my bed
Did you comfort me?

When you're a household name
If you can make it there
Will you live for me
When you've got everything you need

When you become a household name
The song I sing will be the same
When you become a household name
What will you say to me?
What will you say to me?
