

Sing This Song

Downhere

Participating, in my melody, Your looking for some space to be
Can't crowd the light when you know the light is free
Stand just there and share what you believe

I'll sing this song, while the street lamps are dimming maybe
I'll sing a new song, and dance because the dark won't fade me
When you sing this song, Share the hope that's inside your heart
When you sing a new song, you are a light that fills up the dark

Share what you believe...
