B-Side

Downplay

We used to start the day
When the sun started to fade away
We never thought we'd say
We'd give it all up to go back today

And now we are afraid to choose
Between the lives we want and what we stand to lose
And we try not to sing the blues
But we know there's no use
'Cause they explain our view

And we only wish we noticed the change
Was a bullet, down-range

We live on the B-side now
Because you are gone but
We'll see you on the other side
You sang Tiny Dancer wrong
Now it's our favorite song from
The place where we lived to love

I'll never forget when
Things would always be as they were then
Wish I wrote with this pen
Words that could somehow bring you back again

And now I am afraid to choose
Between the life I want and what I stand to lose
And I try not to sing the blues
But I know there's no use
'Cause it explains my view

And we only wish we noticed the change
Was a bullet, down-range

We live on the B-side now
Because you are gone but
We'll see you on the other side
You sang Tiny Dancer wrong
Now it's our favorite song from
The place where we lived to love

You took it all
You took it all
You took it away

You took it all
You took it all
You took it away

We live on the B-side now
Because you are gone but
We'll see you on the other side
You sang Tiny Dancer wrong
Now it's our favorite song from
The place where we live to love

We live on the B-side
We live on the B-side
We live on the B-side now
Because you are gone but
We'll see you on the other side
