

Digging It Out

Downplay

This parasite
Under the skin
Is starting to dig in
This pathogen
Entered the vein
And burrowed in my brain

I'll cut you out

And no tourniquet could ever stop the blood flow
No surgeons thread could sew the open heart hole
Digging it out

Cut wide open
I will find
Pieces of you
Left behind

And no tourniquet could ever stop the blood flow
No surgeons thread could sew the open heart hole

Dig, dig, dig
Out
You gotta digging it out
You gotta digging it out
You gotta digging it out
Digging it out

And no tourniquet could ever stop the blood flow
No surgeons thread could sew the open heart hole
Digging it out
