

Dying to Feel Alive

Downplay

Are you alive?
Can you feel behind your disguise?
The mask you have to wear
To hide the break inside
You can't repair

And now you're showing off the old tricks
Like a dog that's waiting for a new fix
Swim around in circles like a goldfish
Into nowhere
To nowhere

Does it keep you high?
Keep you pacified?
Are you satisfied?
That you're dying to feel
Dying to feel alive

Breathing the air
Can you feel it?
It's everywhere
The lights you cannot see
Are you blinded now?
Numb to everything

And now you're showing off the old tricks
Like a dog that's waiting for a new fix
Swim around in circles like a goldfish
Into nowhere
To nowhere

Does it keep you high?
Keep you pacified?
Are you satisfied?
That you're dying to feel
Dying to feel alive

Are you gone?
Gone away?
A veil surrounds your face
All you had, you gave away
The life that you waste
Are you gone?
Gone away?

Woah
Dying to feel
Dying to feel alive
Woah
Dying to feel
Dying to feel alive
